Hints, more or less dark and obset are thrown out by Mr. Lynch's pa that the defeated Democratic cas date for Congress in the Sixth Dist may contest the seat which the vol may contest the seat which the voters have given to Gen. Yandever. There are oblique insinuations of "counting out," and talk of a possible "sequel." Well, if that is the proposition, it is a game that cannot be played by a single player. We have no idea that Mr. Lynch can afford to go into a contest. We believe that Gen. Vandever has been elected by too large a plurality—small though it is—to be overcome in any fair contest, and anything less than a fair contest will not be submitted to by the Republicans of the district or of the Hisuse of Representatives, where the

other facts pertinent to the case besides the matter of illegal votes, if such there were anywhere in the district, on either side. The question of the corrupt use of money is a proper one to be gone into. This Thins happens to know—and to know it "solid"—that "the sack" was used at two leading points in this district in the Congressional contest, and it was not used in the interest of the Republican can-

ally:

It is now claimed that right here in Los Angeles Gen. Vandever's majority is 398.

This is an advance of twenty-two over the best claims made before. It is a mystery to best claims made before. It is a mystery to dever pat to enought they had the figures down pat to enough they had the figures of the count. The same thing is done in of the count. The same thing is done in San Diego. No count is made there yet, but it is observed that every time the Demorstate candidate gets away from his antagonist a bigger figure is claimed for this Country of the same property is not same property of the same property

county or San Diego.

There is an error in the above figures of 10, the official count showing Vandever's plurality to be 283 instead of 295. As to the Herald's insinuation of fraud, the San Diego Union of the 12th effectively says:

The Herald can make no capital by any insinuation of fraud down this way. There has been no elevation of claims for Vandever in San Diego. On the contrary, the claims have been reduced. There have been no variations of figures here that were been in variations of figures here that were the support of the contrary.
